Chief, Metropolitan Facilities Group, DND/OC

SUBJECT: NPIC Unclassified Phones

We will upgrade the NPIC unclassified telephone system during the next few months to accommodate the new Annex. I think it would be useful to meet with yourself and ADL to discuss a strategy for replacing the switch, wiring the building, and the instrument configuration. A good strategy for this part of the network would probably serve us well in looking ahead to replacing other parts of the network. How about the week of February 27?
